HII Scholarship Fund: Chrysany Collier and Cilicia Mustin

Chrysany Collier

This is my daughter Cilicia Ava Collier Mustin, and she is six years old. She'll be seven in September. She attends Faith Outreach Education Center. She's been there ever since she got the scholarship. It gives you a great foundation. She has a Spanish class in first grade. Right now, she knows how to write in cursive and her cursive is absolutely beautiful.

It afforded me to help me save some money and it also afforded her a great start in her education. The year that I got the scholarship, I was actually able to purchase my first home as well. And that helped with me saving that money that I would've been paying. It helped me to do that.

I truly appreciate the Huntington Ingalls scholarship, and I encourage all of you to apply for the scholarship, if you are eligible. The scholarship helped her to start on the path to success.

Cilicia Mustin

I want to be a police officer when I grow up. Thank you for giving me the scholarship.
